

sf::Drawable

sf::Transformable

sf::Sprite

```
graph BT; sf::Sprite --> sf::Drawable; sf::Sprite --> sf::Transformable;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'sf::Sprite'. Two lines extend upwards from the top of this box, branching out to the left and right. Each line then turns upwards at a right angle to point at the bottom center of a box above it. The box on the left is labeled 'sf::Drawable' and the box on the right is labeled 'sf::Transformable'. This indicates that 'sf::Sprite' is a base class for both 'sf::Drawable' and 'sf::Transformable'.
